Masters of Deception - Wikipedia
"Mastes of Deception" is a substantial art book which collects the work of artists who specialise in tricking the eye so that you look at one thing and see something else, often something impossible. Artists featured include Salvador Dali, Maurice Escher, Rob Gonsalves, Guiseppe Archimboldo and others from the out-and-out surrealists to those whose tampering with reality is extremely subtle.

"Masters of Deception: The Gang That Ruled Cyberspace" by Michelle Slatalla, Joshua Quittner, is an awesome piece of hacker history. The book itself is fairly old in computing terms (1992), yet tells the story of "The Great Hacker War", which as the book illuminates, was no more than a handful of kids trolling each other across the various networks at the time.
