Dmitri Fomin; Sergey Genkin; Ilia V. Itenberg. "This is a sample of rich Russian mathematical culture written by professional mathematicians with great experience in working with high school students .... Problems are on very simple levels, but building to more complex and advanced work .... [contains] solutions to almost all problems; methodological notes for the teacher ... developed for a peculiarly Russian institution (the mathematical circle), but easily adapted to American teachers' needs ...

Russian Experience ... Dmitri Fomin

The Mathematical Circle concept was based on the idea that studying mathematics can be a recreational activity, an activity that could generate as much fun and enthusiasm as a team sport.

Mathematical Circles (Russian Experience) is divided into two parts. The problems in the book are designed for a two year extracurricular course in maths.
