List of PSA engines - Wikipedia

The PSA Group sells a variety of diesel automobile engines with the HDi designation. Earlier versions were exclusive to Peugeot and Citroën. In 1998, PSA entered into a joint venture with the Ford Motor Company to produce a range of new diesel engines. The joint venture makes identical engines which are fitted to a variety of vehicles from a range of car manufacturers. The engines are assembled in production plants in the cities of Trémery and Douvrin for PSA in France, at the Ford ...

The reliable cars are only the ones made in Japan. You do not have to worry about the engine at all. Most European cars just look pretty but low engine reliability e.g. alfa romeo with selespeed transmission, the worst ever produced., peugeot, renault, volvo, vw, bmw, audi are easily seen stranded by the roadside or on the tow truck.

Who makes the most reliable engines? | The Car Expert

The 1.6 L engine is used in the second-generation MINI and various Peugeot 207 models. It has an 85.8 mm (3.38 in) stroke for a total of 1,598 cc (1.6 L) of displacement. The naturally aspirated variant (EP6, EP6C) has conventional fuel injection and lost-foam cast cylinder heads.

A Diesel Particulate Filter (FAP) is part of the vehicle's exhaust system. It traps "soot" particles created during the normal operation of the diesel engine. These are the particles which used to be visible from the exhaust pipes of older diesel vehicles as "black smoke". WHY IS A DIESEL PARTICULATE FILTER FITTED?
