the radical new laws which have transformed the social security system in the last decade. It analyses legislation and case law and lays out the legal principles and concepts, which underpin the sweeping reforms, culminating in the 'welfare reform' package announced in the 2005 Budget. It also explores the policy foundations of these reforms and key administrative changes, such as the creation of a privatised 'job network' and of ...

In the context of information security, social engineering is the psychological manipulation of people into performing actions or divulging confidential information. This differs from social engineering within the social sciences, which does not concern the divulging of confidential information. A type of confidence trick for the purpose of information gathering, fraud, or system access, it differs from a traditional "con" in that it is often one of many steps in a more complex fraud scheme.
