This was a great text for me, however I also  
had the added benefit of having Professor  
Sanford Klein as my instructor for  
Thermodynamics. The text focuses HEAVILY on  
the use of a computer software called  
Engineering Equation Solver (EES) which Klein

### Thermodynamics by Sanford Klein, Gregory Nellis ...

Professor Klein's current research interests are in thermodynamics, refrigeration, and solar energy applications. In addition, he has also actively involved in the development of engineering computer tools for both instruction and research. He is the primary author of the TRNSYS (TRaNsient SYSystem) simulation program that is widely used for solar energy system studies. He also is the

I took the Thermodynamics class that Mr. Klein taught at UW-Madison. This is the first edition of the book and also it was the first time he was using it for a class. Overall the book has a practical solved example problems, all of which are solved in EES, which is great. The downside is that there aren't enough examples.
