UK law arises from laws applying to the United Kingdom and/or its citizens as a whole, most obviously constitutional law, but also other areas, for instance tax law. The United Kingdom does not have a single legal system because it was created by the political union of previously independent countries.

## Law of the United Kingdom - Wikipedia

The law of the United States comprises many levels of codified and uncodified forms of law, the supreme of which is the United States Constitution, the foundation of the federal government of the United States. The Constitution sets out the boundaries of federal law, which consists of Acts of

Overview - Convention & Related Agreements - United Nations

United Nations Audiovisual Library of International Law. The Convention has had a substantial impact on customary law. In view of the high number of States bound by it and of its influence on practice, it seems correct to say that there is a presumption that the non-institutional provisions correspond to customary law, unless the contrary is proven.

of these laws are rarely implemented and are even considered weird, controversial and obnoxious. While some of these laws are outlandish and could rarely be broken nonchalantly by the average citizen, some laws refer to behavior so commonplace that many could be breaking the law without even noticing!
