several other prominent global business publications, *Winning in Emerging Markets* is quickly becoming the go-to book for mapping a strategy for entering new markets—and then quickly gaining a competitive edge in those high growth regions.

Winning in Emerging Markets: A Road Map for Strategy and ...

In *Winning in Emerging Markets*, these leading scholars on the subject present a decidedly different framework for making this crucial choice. The authors argue that the primary exploitable characteristic of emerging markets is the lack of institutions (credit-card systems, intellectual-property adjudication, data research firms) that facilitate efficient business operations.

Winning In Emerging Markets: A Roadmap for Strategy and Execution is a book written by Harvard Business School professors, Tarun Khanna and Krishna Palepu. It was published in 2010 by Harvard Business School Press.

Winning in Emerging Markets - Wikipedia
Part 2 of Winning in Emerging Markets explores the practicalities of doing business in these new economies for those corporations entering the market for the first time and the major local enterprises. It also considers how those national giants can prepare themselves to break out in to wider global markets and how the institutional voids that did not matter in their home markets create new ...
